

MSIC SPEAKERS' BUREAU

To: Practitioners in Infection Control/Employee Health/Education

The MSIC Networking Committee is gathering information to form a speaker's bureau. We need your input—what MSIC members have you found to be an “expert in their field”-in the following topics? Who do you “go-to” for information? Please provide support for why you feel they would be a good representative from MSIC to speak to local groups requesting speakers on these topics. You can **FAX OR E-MAIL** your suggestions to me:
